

Medical Examination Gloves

Medical Examination Black Nitrile Gloves

- LATEX FREE
- NON-STERILE
- POWDER FREE
- AMBIDEXTROUS

Our Nitrile Medical Examination gloves are our most popular non-latex product. Made from a synthetic polymer, these gloves don't contain any protein so they are less likely to cause irritation and allergic reactions. They also provide softness, sensitivity, feel and flexibility. The nitrile material reacts to your body temperature and conforms to the shape of your hand, making them exceptionally snug. The premium color of our nitrile gloves also serves a functional purpose, it makes it much easier to spot pin holes in the unlikely event that they do puncture.

Reorder No:	Size	Packaging
