Stackable & Slippable Petri Dishes

- STERILE EO
- TRANSPARENT

MedPride LABS Petri Dishes applicable to a variety of industries, carefully manufacture each product. Polystyrene Petri Dishes made for laboratory use, suitable for general training, bacteria lab, science lab, mycology studies. Flexible use in various places, bring convenience to your life.

Stackable Petri Dishes are recommended for standard microbiology or general laboratory use. Stackable lid design increases stability.

Slippable Petri Dishes feature a partial edge ring on base which allows a single dish to be slid from a large stack and enhances stability when stacked.

- Made of Premium Quality POLYSTYRENE
- Provides High Performance, Consistent Culture Conditions for Reproducible Results
- Uniform Wall Thickness & Flat Growth Surface
- Suits Most Equipments and Instruments
- 90mm Dia x 15mm Deep
